

Samidha Patel

Python Developer & ML Enthusiast

✉ samidhapatel23@gmail.com ☎ +91-9039650790 📍 Gwalior, (M.P.) 🔗 LinkedIn 🐙 Github

🧩 Career Objective

To apply my skills in Python, machine learning, and data science to build real-world software and AI-driven solutions while continuously growing as a developer.

🎓 EDUCATION

Bachelor of Technology in Computer Science, 2023 – Present | Gwalior, (M.P.)
Madhav Institute of Technology and Science
CGPA : **8.21**

BS in Programming and Data Science, IIT Madras 2025 – Present

🧠 TECHNICAL SKILLS

Languages

Python, Java, JavaScript, SQL

Web Development

HTML5, CSS3, Flask, Django, REST APIs, JWT Authentication, Vue.js

Machine Learning and Computer Vision

Scikit-learn, TensorFlow, Keras, OpenCV, CNN, ResNet50, EfficientNet

Databases

MySQL, MongoDB

Developer Tools

Linux, Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Streamlit, Docker (basic), Vercel, Netlify

📖 RELEVANT COURSEWORK

Data Structures • Algorithms Analysis • Operating Systems • Computer Networks • Data Mining • Database Management • Software Engineering • Computer Architecture • Information Security

🏆 PROJECTS

Placify - Placement Application Portal, Feb 2026 – Mar 2026
Flask, SQLAlchemy, HTML, CSS, Bootstrap

- Built a full-stack **placement management system** using Flask, enabling seamless interaction between Admin, Companies, and Students
- Implemented **role-based authentication and dashboards**, supporting job posting, application tracking, and resume submission
- Designed a **scalable relational database** using SQLAlchemy to manage users, jobs, and applications efficiently
- Developed an **admin-controlled company approval system** and responsive UI using HTML, CSS, Bootstrap, and Jinja

Deepfake Detection System, Python, TensorFlow, Streamlit

Feb 2026 – Apr 2026

- Developed a **deepfake detection system** for image classification to distinguish real and manipulated facial images using deep learning models.
- Performed a **comparative study of CNN, ResNet50, and EfficientNet** using image preprocessing, data augmentation, and train-validation-test splitting.
- Evaluated model performance using **accuracy, precision, recall, F1-score, and confusion matrix** to compare effectiveness across architectures.
- Built an interactive **Streamlit-based web interface** for image upload and real-time prediction.

The Beacon - A Clear Path in Uncertain Times

Oct 2025 – Dec 2025

- Collaborated in a team to **design and develop an AI-powered mental health platform**, focusing on user-centric planning and feature structuring
- Led **UI/UX design**, creating intuitive and empathetic user flows to enhance engagement and accessibility
- Integrated **multiple AI/chatbot systems** to enable context-aware conversations and improve user interaction
- Contributed to **planning and system design**, ensuring a scalable and user-focused solution

EXTRACURRICULAR

2023 – Present | Gwalior, (M.P.)

- Member, **Girls Grievance and Gender Sensitization Cell**
- **Departmental MoU Coordinator**
- Core Member, **The Institution of Engineers (India)**
